THE ICEVG COIN

THE MEANING OF THE COIN: The front of the coin celebrates the service of our fellow team members throughout the years by surrounding the ICEVG emblem by *some* of our many missions. Not everyone that performed some of these missions was in ICEVG. At this writing the EW mission is still performed by an Idaho Air National Guard unit. The service of those not in ICEVG is celebrated as well. The back of the coin memorializes the sacrifice of those who gave their all in the defense of freedom by name and location of their noble sacrifice. The center is intended to be reminiscent of the *wall* in Washington DC. They are not forgotten.
